I have been creating a new marketing video for Global Talent Link's homepage. The company focuses on online educational services and lacked footages to complete clear, convincing, and innovative visuals. From there, I collected materials and created animations, assets and motion effects to combine and enrich video footages.

I was also redesigning GTL's homepage illustration & info-graphics, as well as making lottie animation for web-use.

Air, Water, Fire is a series of self-directed websites showcasing 3 imaginary tools that are able to manipulate data with elemental energy. They are done in close collaboration with Zhengzhou Huang, who is also a new media artist and a UCLA Design Media Arts MFA alumni.

I work closely on every aspect of the series including interface design, web development, graphic design, video making, 3D playable demo, as well as speculative concept-building.

Water's main UI is designed on an interactive cube where each face shows a page of conversational text, videos, photos and illustrations.
(web: <http://projects.dma.ucla.edu/exhibitions/mfa2021/water/>)

Air shows an interactive booklet made with Bindery.js. At the last page of the booklet is a VR video leading viewers to the story.(web: <http://projects.dma.ucla.edu/exhibitions/mfa2021/air/>)

Fire presents a set of illustrations, photos for a set of objects(a wooden GPU kit). It also contains a 3D playable mini-game made in Unity as a virtual demonstration of these physical objects.
(web: <http://projects.dma.ucla.edu/exhibitions/mfa2021/fire/>)

Water

Water is an unstable data structure with which you store, share and delete your data.

[web link](#)

Let me introduce you to the full set of equipment and tools we use for the data transfer process.

AIR is a smart home device who helps you grasp your quantified surroundings you're not able to sense.

Go through the booklet to get you started with AIR.

Ar(t)strology is a astrological website making predictions for art creation. Working from text generated by GPT-2 and made with SVG filter, CSS animations, and black-and-white interactive UI elements, its style situates in a feeling of being mysterious, amorphous and uncertain.

This website project is a self-directed art project planned, designed and coded by myself.

(web: <https://0buo.github.io/arstrology/>)

THIS SITE IS A PSEUDO SELF-HELP DOCUMENT POSITIONED TO BE THE OUTLET OF SUCH ANXIETY . HERE, WITH THE OCCULT SCIENCES OF ARSTROLOGY—"A" AS AI , "ARS" AS ART , AND "ARSTRO" AS ASTRO- , 11 SIGNS WERE DISCOVERED AS 11 SNIPPETS OF BARCODES . DRAFTED WITH GPT-2 , YOUR SIGN IS CALCULATED VIA ASTROLOGICAL EQUATIONS .

WITH A SIMPLE INPUT FROM YOUR SELF-EVALUATION, YOU CAN GET YOUR ASTROLOGY READING TODAY. GET TO KNOW YOUR SIGN'S MEANING, TAKE ITS ADVICE, REVIEW YOUR VALUE, RESET YOUR GOALS, LOOK UP ITS TERMS, OR USE ITS LANGUAGES FOR THE NEXT ARTIST STATEMENT YOU ARE THINKING ABOUT. PREDICTIONS UPDATE EVERYDAY AND CYCLE THROUGH MONTHS.

Share Screen is an online exhibition. I was commissioned to design the homepage of this exhibition website in Oct, 2020.

The homepage is designed for both desktops and phones. On desktops the main menu is presents as a stack of papers which upon mouse click will unfold into a wheel of options. On the phone, the menu expands and folds as a dropdown. The background is a 3D rendered image with WebGL filter and its perspective moves with mouse motion.

(web: <https://projects.dma.ucla.edu/exhibitions/share-screen/>)

sharp screen

[online show homepage](#)

Diary is a 3D reading interface made with Unity 3D, coded with C#, with assets designed on Maya and Adobe Illustrator. The reading experience starts with a traditional computer desktop screen, and then it transitions from the 2D landscape backdrop to a 3D environment where text files are displayed in a ring of floating panels.

It is a self-initiated project made by myself.
